

Measuring for Your Delivery

Before purchasing your new furniture, please note all important measurements and obstructions so you can ensure a successful delivery.

1 Height of all doors, interior and exterior, between the entrance and room in which your furniture will be placed.

2 Width of all doors, interior and exterior, between the entrance and room in which your furniture will be placed.

3 Distance between stairs and ceiling, measured at a 45-degree angle.

4 Width of stairways, measured at the narrowest point, including bannister.

5 Height of any low-hanging lights, chandeliers, or anything else hanging from the ceiling.

6 Height of ceiling.

7 Distance between doors and walls directly facing them.

Things To Consider (Please check any that apply)

<input type="checkbox"/> Can a delivery truck fit down my road?	<input type="checkbox"/> Are you in an apartment?
<input type="checkbox"/> Can your driveway fit a 37 foot long, 14 foot tall truck?	<input type="checkbox"/> Are there any special instructions or requirements you need to inform us of?
<input type="checkbox"/> Will the furniture fit through all doorways, hallways, and staircases?	<input type="checkbox"/> Is your room ready for the furniture?

Preparing for Delivery

During delivery, please inspect your furniture thoroughly and report any damage to our delivery team so we can resolve the issue promptly. Please note: we will not hoist furniture or remove windows.

- Secure low-hanging light fixtures.
- Remove doors if necessary.
- Set rugs in place.

- Remove pictures or art hanging on walls.
- Put pets in another room.
- Clear a space in the room for your furniture.
